## USER MANUAL

### **WARNING**

This product contains nicotine. Nicotine is an addictive chemical. Keep this product out of reach of children and pets. Store the product in a dry and clean place.

### **CAUTION**

Please do not recharge or refill the product when the vapor runs out.

### **HOW TO USE**

1. Take out the device and remove the silicone plug of the mouthpiece.
2. Draw to vape and it will come out vapor.
3. E-liquid and battery capacity display: The number on the display shows the current battery level and the e-liquid icon shows the current e-liquid level.
4. Mode Adjustment: Press the red button to change the working mode, and the motor will vibrate once as a hint. When it is under **NORM** (two coils work one by one) mode the lights are white, and when it is under **TURBO** (two coils work together) mode the lights are orange.

6. Please use the Type-C charging cable to charge the device. The lightning icon on the display will flash during charging and stop flashing when the battery is full.

7. When vapor production stops, the device needs to be disposed of in specially designated places for returning batteries.

In order to prevent the phenomenon of power lose fast after virtual charging, please ensure sufficient charging time when recharging.
